LINCOLN BRANCH
Rudge & Guenzel Bldg
Lincoln 1, Nebraska

January 1945

PERIODICALS

This is the list of periodicals currently received at Lincoln Branch; it is issued annually for your information. Those which are new for 1945 are marked with an *. Periodicals are circulated for official use.

Please check those titles which you need to see regularly, write your name, agency and address at the top, and return this list to the Lincoln Branch. There may be a few titles which you will need to add to those you are now receiving; there may be some which you will wish to drop. Because of the length of some lists, it is necessary to close circulation on some titles; it is regretted that finances do not permit the receipt of as many copies as would be desirable in some cases.

It is possible by routine checking of the BIBLIOGRAPHY OF AGRICULTURE to save time spent on regular reading of periodicals which contain only occasional articles of interest; the particular article can be requested individually. Such checking also gives you a more complete coverage of what is being written in your special field.

U. S. DEPARTMENT of AGRICULTURE

Vol. 4, No. 2

LINCOLN BRANCH
Rudge & Guenzel Bldg.
Lincoln 1, Nebraska

NEW BOOKS

CROPS

Dickson, James G. OUTLINE OF DISEASES OF CEREAL AND FORAGE CROPS OF THE NORTHERN PART OF THE UNITED STATES. 259 p. 1940, Minneapolis, Burgess publishing co., 464.02 D56.

The purpose is to present in as brief a space as feasible, the important information pertaining to field crop diseases. The cereal crops listed are barley, corn, oats, rye, sorghums and millet, wheat, and flax. Forage crops given are alfalfa and sweet clover, clovers, and soybean. An enormous number of references is supplied.

General Mills, Inc. STORY OF THE CEREAL GRAINS. 30 p., illus. 1944, Minneapolis, General Mills, Inc.

Cereals through the ages (cultivation and use); the world's cereal grains (where the various grains are grown); the cereal of cereals (wheat); nutritive contributions of the cereal grains are the contents of this pamphlet, well illustrated with pictures and maps.

GOVERNMENT

Blaisdell, Donald C. GOVERNMENT AND AGRICULTURE; THE GROWTH OF FEDERAL AID. 217 p. 1940, New York, Farrar and Rinehart, inc. 281.12 B57

This is an incisive and critical study of how the government has responded to the needs of one of our basic industries - agriculture. The author was for four years administrative assistant to M. L. Wilson when he was Under Secretary of Agriculture. Contents include agricultural adjustment, markets, soil conservation, science and technology, farm security, and the Department - a service agency.

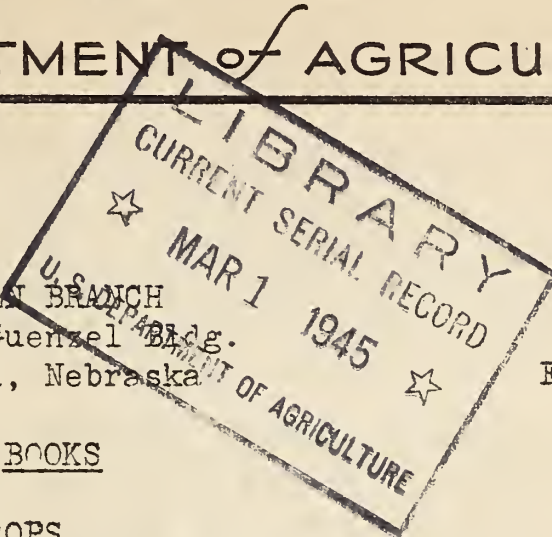

Juran, J. M. BUREAUCRACY; A CHALLENGE TO BETTER MANAGEMENT; A CONSTRUCTIVE ANALYSIS OF MANAGEMENT EFFECTIVENESS IN THE FEDERAL GOVERNMENT. 138 p. 1944, New York, Harper and Brothers publishers. 249.2 J97

"The government population could be cut in half, and this while performing all the present functions with at least present effectiveness." The author is a member of the bureaucracy and writes about it in a penetrating, analytical, and readable manner.

LIVESTOCK

Dowell, Austin A. and Bjorka, K. LIVESTOCK MARKETING. 534 p. 1941, New York, McGraw-Hill book company, inc. 280.340 D75.

Supply areas; slaughter; country dealers; public markets; auctions; transportation; shrinkage; bruising, etc.; grade standards; market news and statistics; prices; regulation and supervision of the packing industry; selling; cold storage lockers; distribution of meat - wholesale and retail; and looking to the future are the chapter contents of this book.

Harrison, Edwin S. JUDGING DAIRY CATTLE. 132 p., illus. 1940, New York, John Wiley & sons, inc. 43 H24.

Skill in selection of a herd is necessary to the livestock owner. This book is copiously supplied with photographs made by Strohmeier and Carpenter which should be helpful in judging the various points of dairy cattle.

SOIL

Mickey, Karl B. MAN AND THE SOIL; A BRIEF INTRODUCTION TO THE STUDY OF SOIL CONSERVATION. 110 p. illus. 1945, Chicago, International Harvester Company. Primarily, this book was written as a simple introduction to soil conservation for those who have no technical knowledge of it. As everyone has a basic dependency on soil, the interest in it should be broad. Historical and social aspects of the subject are considered. Very readably written.

SOIL SCIENCE SOCIETY OF AMERICA, PROCEEDINGS 1943. 473 p. illus. 1944, Morgantown, West Virginia, 56.9 So3 Vol. 8, 1943.

These are papers presented at the meeting of the Society held in Cincinnati, Ohio, November 10-12, 1943. Under Soil Physics are the subjects Soil Aggregation, and Soil Moisture Studies; under Soil Chemistry - Soil chemistry in Relation to Plant Growth; under Soil Microbiology - Inoculation of Leguminous Plants; under Soil Fertility - Recent Developments in Hay and Pasture Improvement, and Organic Soils; and under Soil Genesis, Morphology, and Cartography - Characteristics of Great Soil Groups, and Forest Soils.

MISCELLANEOUS

Curtis Publishing Co. RURAL ELECTRIFICATION; A POSTWAR MARKET FORECAST. 33 p. 1944, Philadelphia. The Country Gentleman. 335 C943.

From 1934 to 1944 the percentage of rural electrification in the farm field increased from 10.9% to 44.9%. There are bright postwar prospects for this market. Tables and estimates of the present situation and the future possibilities in the various phases of this field are given here.

Kains, M. G. FIVE ACRES AND INDEPENDENCE; A PRACTICAL GUIDE TO THE SELECTION AND MANAGEMENT OF THE SMALL FARM. 397 p. rev. & enl. 1944. New York, Greenberg. 30 K123.

This book tells how to select, finance, stock and develop such a place. It points out mistakes to avoid as well as methods that assure success; it emphasizes the importance of good water, sanitation, drainage and irrigation; it tells how to enhance crop yields while also improving soil conditions; it explains how to treat neglected orchards already on the place, how to start and care for new ones; how to plant berry patches and vineyards. It discusses the pros and cons of fruit and vegetable crops, dairy cows, hogs, poultry, and bees. A fund of information.

National Seedsman. SEED TRADE BUYERS GUIDE. 240 p. 28th ed. 1945, Chicago, Author. 225 Se3 1945.

Seed laws for various states, officers of seed trade associations, garden seed growers, garden seed wholesalers, common weeds of the pasture (illustrations, descriptions, etc.), federal-state seed laboratories are some of the useful items of information included herein.

Onstott, Kyle. BEEKEEPING AS A HOBBY. 137 p. 2d ed. 1941, New York, Harper & brothers publishers. 424 On7

To be neither confusingly long or to be oversimplified is the intent of the author in writing this book. It is his aim to offer specific instructions and suggestions to the bee husbandryman "for a maximum amount of pleasure and a modicum of profit." The hive, the bees and their management and manipulation, swarms, honey - comb and extracted, queens, diseases, and forage plants are some of the topics.

PERIODICAL SELECTIONS

* Many of the January Newsletters containing the periodical list have
* been returned, and the work of sorting them and adding the names is
* going on as rapidly as possible. It is quite likely that the issue
* to which your name has been added for the first time may take a
* while to reach some of you, so if you do not begin to receive a par-
* ticular periodical right away, please do not be discouraged. Also,
* the lists are made up geographically for the quickest traveling
* time in the mails. This may necessarily make a slight difference
* in the time when you have been accustomed to the arrival of the pub-
* lications, and the locations from and to which they have been re-
* ceived and sent on. Just follow the order of the list attached to
* the magazines.

* * * * *

BEAMED TO BORROWERS

BORROWERS--ALL USDA employees in Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming are welcome to use the Lincoln Branch Library. ITS services are YOURS.

FORM AD-245--This is used when requesting material. The Library uses it as a charge record. It may be procured from your supply center. Give Call No. (all of the number given at the end of the Newsletter entry); your name, agency, and address (in the section marked "For", "Bureau", etc.); author (of book or article); title (of book or article); name of periodical and what information you have as to vol., no., page and date. "Charged" and "Return to" should be left blank.

- LOAN PERIODS -
1. Usual--two weeks; renewable upon request if not needed elsewhere
 2. Limited--Dependent on circumstances. These may be books in unusual demand, or books borrowed on inter-library loan whose date limit is set by the loaning library. Watch the date.
 3. Maximum--One month; renewable, if not requested, for one additional month ONLY.
 4. Current periodicals--Three days per person.

OVERDUES--You don't like to receive them and we don't like to send them. Return your material on time, or ask for a renewal. It will save our time for you.

REQUESTS--These need not be limited to titles listed in the NEWSLETTER. Check the BIBLIOGRAPHY OF AGRICULTURE for current material on agriculture and on related subjects. If we do not have the title desired, we shall try to borrow from another library.

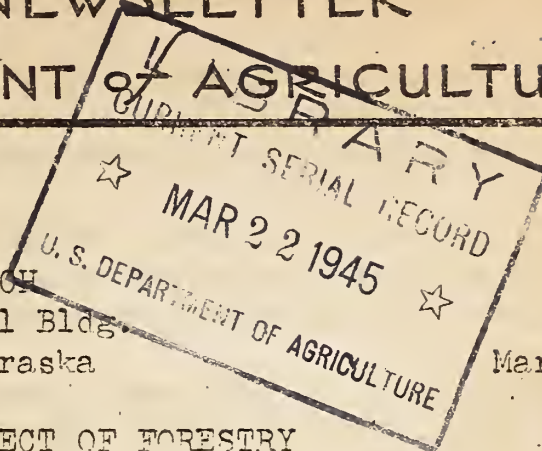

BEST SELLERS--We frequently have long waiting lists for publications listed in the NEWSLETTER. Names are added in the order received.

LEST WE FORGET--The fellows on the end of the list would also like the information while it is current. Look at the periodicals soon after they arrive. If you are going to want more than three days to assimilate the contents which interest you, add your name to the end of the list, send the material along, and it will come to you again.

Lincoln 1, Nebraska

SELECTED NEW BOOKS

GARDENING

Everett, T. H. and Clessold, E. J. VICTORY BACKYARD GARDENS AND HOME CANNING; HOW TO GROW YOUR OWN VEGETABLES. 96 p. illus. 1942. Racine, Wis. Whitman publishing co. 91.15 Ev21
Locating, planting plan, tools, fertilizer, seed sowing, summer care, harvesting and storage, and the sick vegetable are general data given first; then the various vegetables and fruits with their individual peculiarities come next; home canning, dehydration and brining bring the final touch. Also helpful are the consumption and planting figures and frost zone maps.

Foster, Bunny and Foster, Phil. IT IS EASY TO GROW HERBS; A HANDBOOK OF VALUABLE INFORMATION ON GROWING, DRYING AND COOKING WITH HERBS. 47 p. 1943. Morris-town, N.J. 97.21 F81

"Herbs combine all the joys of the flower garden and the practical value of the vegetable patch." The title well describes the contents. The name, uses, description and cultivation of each herb is given. Harvesting and recipes logically follow.

Hedrick, U. P. FRUITS FOR THE HOME GARDEN. 171 p. illus. 1944, New York, Oxford University press. 93.21 H35 Fr.

"Fruit-garden foresight" is the title of the first chapter; size, time and climate are to be considered before varieties can be selected. Thus the book is a step-by-step procedure. The specific fruits included are apple, pear, peach, plum, cherry, grape, bush fruits, bramble fruits, and strawberry.

Tiedjens, Victor A. THE VEGETABLE ENCYCLOPEDIA AND GARDENER'S GUIDE. 307 p. illus. 1943; New York, New Home Library. 91 T44

Part 1 is an encyclopedia of vegetables, listing them alphabetically giving description, soil requirements, cultural directions, diseases and pests. Part 2 is an encyclopedia of herbs with similar information. Part 3 is the gardener's guide giving general instructions and suggestions which apply to the garden as a whole.

LIVESTOCK

Snapp, Roscoe R. BEEF CATTLE: THEIR FEEDING AND MANAGEMENT IN THE CORN BELT STATES. 550 p. illus. 3d ed. 1939, New York, John Wiley & sons, inc. 43 Sn 1 Ed. 3

General aspects of the beef cattle industry given as Part I include early history of beef production in the U.S.; the trend since 1900; other important beef-producing countries; phases and areas of beef production; and the relation of beef cattle to general farming and to soil fertility. Part II is about the breeding herd. Part III consists of fattening cattle for market; the importance of age, grade, and sex; rations; roughage; silage; grass; and feeding. General problems of beef production takes up Part IV; baby-beef; marketing; show and sale; buildings and equipment; and diseases and parasites.

Vaughn, Henry W. TYPES AND MARKET CLASSES OF LIVESTOCK. 608 p. illus. 22d ed. 1942, Columbus, Ohio, College book company. 40 V46 Ed. 22

The procedure followed here is to begin with the animal at market, both on foot and the carcass; to go from that to a study of it in the feed-lot; then to consider the selection and operation of the breeding herd. Thus knowing what is wanted on the market, one is better equipped to know how to produce it. This system is followed for cattle, sheep, swine, and horses and mules.

PLANTS

Clements, Frederic E. PLANT SUCCESSION AND INDICATORS. Illus. 453 p. 1928, New York, H. W. Wilson company. 463.8 C59Pls

Two previous volumes, "Plant Succession" and "Plant Indicators" are combined in this volume. Various courses, reactions, stabilization and climax, development, different kinds of indicators are described in this excellent book.

Foster, Adriance S. PRACTICAL PLANT ANATOMY. 155 p. 1942, New York, D. Van Nostrand company, inc. 463.41 F81

Each chapter attempts to summarize briefly but clearly the present knowledge of that subject; each chapter has a list of references for further study. The chapter headings are: Protoplast; cell wall; meristems; Problems in the classification of cell types, tissues and tissue systems in vascular plants; Epidermis; Parenchyma cells; Collenchyma cells; Sclereides; Fibers; Tracheary elements; Sieve-tube elements; Stem; Leaf; Root.

Rickett, Harold W. THE GREEN EARTH; AN INVITATION TO BOTANY. 353 p. illus. 1943, Lancaster, Pa., Jaques Cattell press. 463 R42

Did you know that "the flat expanses of leaves owe their stiffness to I-beams; the flexible yet unyielding stems which weather the violence of air, of rain, and of snow and ice survive by virtue of the idea of the hollow column"? Do you believe in fairies and so in the magical qualities of fern seed? It is not difficult to obtain the seed. Much scientific information is very pleasantly supplied about the green color of leaves and what becomes of it; the architecture, growth, and purpose of plants; the likeness of peas in a pod; names, and new worlds for old.

MISCELLANEOUS

Butz, Earl L. PRODUCTION CREDIT SYSTEM FOR FARMERS. 104 p. 1944, Washington, D. C. The Brookings Institution. 284.2 B98

"The Production Credit System is one of the four major divisions of the Farm Credit Administration. It is the purpose of this study (1) to examine the agricultural finance being done by the Production Credit System in relation to the job which Congress intended it to do, (2) to bring together and analyse available information concerning the current financial position and operating efficiency of the system, (3) to analyse the amount and effect of federal subsidy now given, and (4) to suggest a broad policy and course of action for the future."

Council of State Governments. POSTWAR PROBLEMS OF AGRICULTURE; REPORT OF THE COUNCIL OF STATE GOVERNMENTS. 67 p. 1944, Chicago, The Author. 281.12 C83
This publication is a result of the Midwest Conference on Postwar Agricultural Problems held in Chicago last summer. Certain recommendations on the following subjects were unanimously adopted: elimination of interstate trade barriers; rural zones laws for the protection of veterans, and others; in the purchasing of agricultural lands; farm purchase money mortgages, farm tenancy and farm labor legislation; soil conservation enabling acts; tax delinquent rural lands; encouragement of scientific research and extension work; and disposal of surplus war property.

Shepherd, Geoffrey S. AGRICULTURAL PRICE ANALYSIS. 402 p. 1941, Ames, Ia., The Iowa state college press. 284.3 Sh4

Principles rather than commodities is the focus of this book, - a system of analytical principles for application in specific price research problems. It presupposes some knowledge of agricultural marketing and of statistical methods.

BEAMED TO BORROWERS

BORROWERS--ALL USDA employees in Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming are welcome to use the Lincoln Branch Library. ITS services are YOURS.

FORM AD-245--This is used when requesting material. The Library uses it as a charge record. It may be procured from your supply center. Give Call No. (All of the number given at the end of the Newsletter entry); your name, agency, and address (in the section marked "For", "Bureau", etc.); author (of book or article) title (of book or article); name of periodical and what information you have as to vol., no., page and date. "Charged" and "Return to" should be left blank.

- LOAN PERIODS -
1. Usual--two weeks; renewable upon request if not needed elsewhere
 2. Limited--Dependent on circumstances. These may be books in unusual demand, or books borrowed on inter-library loan whose date limit is set by the loaning library. Watch the date.
 3. Maximum--One month; renewable, if not requested, for one additional month ONLY.
 4. Current periodicals--Three days per person.

OVERDUES--You don't like to receive them and we don't like to send them. Return your material on time, or ask for a renewal. It will save our time for you.

REQUESTS--These need not be limited to titles listed in the NEWSLETTER. Check the BIBLIOGRAPHY OF AGRICULTURE for current material on agriculture and on related subjects. If we do not have the title desired, we shall try to borrow from another library.

BEST SELLERS--We frequently have long waiting lists for publications listed in the NEWSLETTER. Names are added in the order received.

LEST WE FORGET--The fellows on the end of the list would also like the information while it is current. Look at the periodicals soon after they arrive. If you are going to want more than three days to assimilate the contents which interest you, add your name to the end of the list, send the material along, and it will come to you again.

SELECTED NEW BOOKS

FARMING

Easterbrook, L. F. **MACHINES ON THE FARM.** 32 p. illus. 1943, New York, Longmans, Green and co. 58 Ea7

Britain has achieved a gigantic increase of home food production, increased her arable acreage by 50 percent with only a small increase in labor force. This has been done by using machinery; how is here told.

Moore, H. I. **GRASSLAND HUSBANDRY.** 112 p. illus. 1943, New York, W. W. Norton & company, inc. 60.1 M78

This is an English book. Because of the war, some of the green pastures of that land were ploughed up for planting; thousands of acres of poor permanent grass remained. Grassland management under these conditions is the subject of this volume, well illustrated with photographs.

Moore, H. I. **PLOUGHING FOR PASTURE.** 32 p. illus. 1944, New York, Longmans Green and co. 60.1 M78P

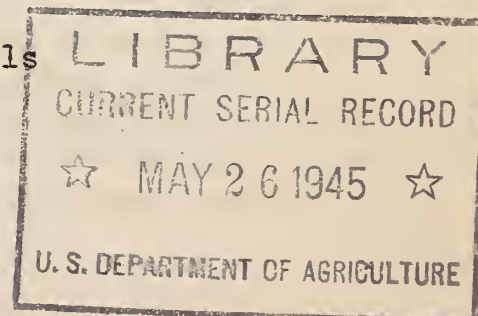

What is now termed "ley farming" has been greatly affected in Great Britain by the war. Ley means arable land under grass. It is a system of rotation whereby permanent grassland is ploughed and planted to cereal crops; these may be followed by root crops; presently the land comes back to grass. This has not only been good for the soil, but it has also been an asset in controlling animal and crop disease.

SOIL

American society for testing materials. **PROCEDURES FOR TESTING SOILS.** 200 p. illus. 1944, Philadelphia, The Author. 56.43 Am32

"This publication brings together in convenient form various methods of testing soils now in current use. Included are 13 methods adopted as Standard or Tentative Standard by the American Society for Testing Materials, and 38 suggested methods of test for soil and soil mixtures. The suggested methods have no official status in the Society; they represent available test procedures that have been used with some degree of success for the determinations in question and are presented in this publication only as information... The soil test procedures fall into five categories each pertaining to a particular type of soil testing, as follows:

- Part I -- Indicator Tests on Soils
- Part II -- Compaction and Consolidation Tests on Soils
- Part III-- Strength Tests on Soils
- Part IV -- Tests for Soil - Cement
- Part V -- Tests for Soil - Bituminous Mixtures"

Barrett, Thomas J. EARTHWORMS; THEIR INTENSIVE PROPAGATION AND USE IN BIOLOGICAL SOIL-BUILDING. 32 p. illus. 1944, Roscoe, California, Earthmaster publications. 436 B272E.

The earthworm in nature is part one of this publication, on how through the ages the earthworm has been a factor in soil-building forces and its importance as such in forest and farm soil. Part two is an earthworm production manual, with illustration instructions for constructing the equipment.

Meinzer, Oscar E. HYDROLOGY. 712 p. illus. New York, McGraw Hill book company, inc. 292 M472.

Different men have written sections on the various phases of this work; precipitation, evaporation, infiltration, transpiration, soil moisture, ground water, runoff, droughts are among the topics here considered.

MISCELLANEOUS

Brandt, Karl. RECONSTRUCTION OF WORLD AGRICULTURE. 416 p. 1945, New York, W. W. Norton & company, inc. 281 B733.

Some thirteen hundred million people on this earth still live as farmers. How will they be affected by the peace and reconstruction? Chapter headings in this book are: Effects of World War I upon world agriculture; World agricultural trends in the twenties; World agricultural trends in the thirties to World War II; Impact of the present total war upon the world's food economy, agriculture, and the rural community; Probable condition of world agriculture upon the termination of hostilities; Food requirements and agricultural adjustments necessary during the demobilization period; Basic controversial issues in a world agricultural policy for an era of peace; Reconstruction of world trade as the basis for a reconstruction of agriculture; General orientation for a feasible course of agricultural reconstruction; outlines of reconstruction in selected countries.

Cooper, Alfred M. SUPERVISION OF GOVERNMENTAL EMPLOYEES. 202 p. 1943, New York, McGraw-Hill book company, inc. 249.3 C78S

There are some phases of governmental supervision different from supervision in private enterprises. This is partly due to administrative framework and partly to civil service regulations. This book presents an epitome of ideas developed by experienced governmental supervisors.

Peairs, Leonard M. INSECT PESTS OF FARM, GARDEN, AND ORCHARD. 549 p. illus., 4th edition. 1941, New York, John Wiley & sons, inc. 423 Sa5I Ed. 4

Changes in farm practices may affect the importance of insects. New insects appear, and new chemicals for the control of insects. In this volume may be found revised information on insect control, -- climatic, biological, mechanical, cultural, and chemical; also insects injurious to crops, grasses and cereal grains, leguminous crops, garden crops, small fruits, orchard fruits, stored products and household goods, and man and domestic animals.

Taylor, H. J. TO PLANT THE PRAIRIES AND THE PLAINS: THE LIFE WORK OF NIELS EBBESEN HANSEN. 89 p. 1941, Mt. Vernon, Iowa, Bios. 120 Ebl

From far parts of the world, Mr. Hansen has brought stock and seed that through crossbreeding could produce results that would withstand heat, drought and cold. Alfalfa, tailless sheep, Indian grapes, pears from Harbin, Manchu apricots and sand cherries are a few of the things discussed. Always he kept his attention and effort centered on the prairie northwest.

DO YOU HAVE

a problem? People in Lincoln can either reach the Library by telephone or come to it when they want reference service. People outside of Lincoln have to depend on the mail for the connecting link. As some people have discovered; reference service as well as circulation can be handled in this way. If you would like to know what your Library has available in general about your work, or if you have questions about more specific problems the answers to which may be found in printed matter, try dropping us a line.

* * * * *

BEAMED TO BORROWERS

BORROWERS--ALL USDA employees in Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming are welcome to use the Lincoln Branch Library. ITS services are YOURS.

FORM AD-245--This is used when requesting material. The Library uses it as a charge record. It may be procured from your supply center. Give Call No. (All of the number given at the end of the Newsletter entry); your name, agency, and address (in the section marked "For", "Bureau", Etc.); author (of book or article); title (of book or article); name of periodical and what information you have as to vol., no., page and date. "Charged" and "Return to" should be left blank.

- LOAN PERIODS -
1. Usual--two weeks; renewable upon request if not needed elsewhere
 2. Limited--Dependent on circumstances. These may be books in unusual demand, or books borrowed on inter-library loan whose date limit is set by the loaning library. Watch the date.
 3. Maximum--One month; renewable, if not requested, for one additional month ONLY.
 4. Current periodicals--Three days per person.

OVERDUES--You don't like to receive them and we don't like to send them. Return your material on time, or ask for a renewal. It will save our time for you.

REQUESTS--These need not be limited to titles listed in the NEWSLETTER. Check the BIBLIOGRAPHY OF AGRICULTURE for current material on agriculture and on related subjects. If we do not have the title desired, we shall try to borrow from another library.

BEST SELLERS--We frequently have long waiting lists for publications listed in the NEWSLETTER. Names are added in the order received.

LEST WE FORGET--The fellows on the end of the list would also like the information while it is current. Look at the periodicals soon after they arrive. If you are going to want more than three days to assimilate the contents which interest you, add your name to the end of the list, send the material along, and it will come to you again.

A black and white illustration of a tall, ornate candlestick with a single candle, standing next to a stack of several old, thick books. The books have worn spines and some visible text on the covers, including 'The History of the World' and 'The History of the World'.

LIBRARY NEWSLETTER

U.S. DEPARTMENT OF AGRICULTURE

LINCOLN BRANCH
Rudge & Guenzel Bldg.
Lincoln 1, Nebraska

Vol. 4, No. 7

July 1945

SELECTED NEW BOOKS

DISEASES

Leach, Julian G. INSECT TRANSMISSION OF PLANT DISEASES. 615 p. illus. 1940, New York, McGraw-Hill book company, inc. 423 L462

This is a selective book; not all of the diseases transmitted by insects or all of the insects which transmit diseases have been included; stress has been laid on those insects most completely investigated and on diseases which have aspects relevant to insect transmission. Anatomy and physiology of both plants and insects, and transmission of animal diseases are also included.

Runnells, Russell A. ANIMAL PATHOLOGY. 594 p. illus. 1944, Ames, Iowa, Collegiate press, inc. 41 R873 1944

This book is divided into three parts: General pathology, Systemic pathology and Special pathology of the specific infectious diseases. Recent literature in both animal and human pathology of this country and several foreign countries has been consulted, but animal diseases not generally encountered in this country are not included.

FARM EQUIPMENT

Studebaker corporation. CARE AND MAINTENANCE OF YOUR FARM TRUCK. Ed. 1945. 48 p. 1944, South Bend, Author.

This handy little booklet has general information and corrective measures, lubrication, speeds, tire wear, loading, and getting the jump on trouble; about a third of the book is on diagnosing truck trouble.

Watts, Frank E. DISTRIBUTION, THE BOTTLENECK TO FARM ELECTRIFICATION. 30 p. 1944. Philadelphia, Farm J. 335 W34.

"The writer has attempted to create a helpful understanding of some problems involved in development, distribution and sales of electrical equipment and appliances to one of the richest markets for the industry - the farm."

FOOD PRESERVATION

Clarke, Elsie. HOME CANNING IN WARTIME. 123 p. 1943, Cleveland. World publishing company. 389.3 c55

"'Lady,' says Uncle Sam, 'it's your war, win it.'" The contents of the book are: Successful canning; Fruits, Acid vegetables; Fruit juices, non-acid vegetables; meat, poultry, game, fish; Soups; Preserving; Brining and pickling; and Dehydration."

Sparkes, Boyden. ZERO STORAGE IN YOUR HOME. 149 p. 1945, Garden City, New York, Doubleday, Doran & co., inc. 389.3 Sp2 1945

The first part of this book is about the possibilities which may be achieved by, and the experience of people who have used, the method of preservation of food by freezing at home. The second part is designed as a handbook for the various

processes, containing ideas from those doing research and working in testing laboratories.

HYDROPONICS

Gericke, W. F. COMPLETE GUIDE TO SOILLESS GARDENING. 285 p. illus. 1942. New York, Prentice-Hall, inc. 90.15 G31

Soilless gardening is based on the proposition of supplying by water and by chemicals the factors for plant growth which are usually supplied by soil. Treated herein are the apparatus, nutrient solutions, water, planting and physical conditions; also included are various types of crops, as vine crops, root vegetables, leaf vegetables, seed vegetables, field crops, and flowers.

WAR AND AGRICULTURE

Association of land-grant colleges and universities. POSTWAR AGRICULTURAL POLICY. 61 p. 1944, Berkeley, Cal., Author. 281.12 As73

"Believing that the specialized knowledge and broad experience available in the various state agricultural colleges, particularly on agricultural problems of regional and national scope, if assembled and coordinated, would be distinctly helpful in guiding agricultural readjustments in the postwar period, the Association of Land-Grant Colleges and Universities created... a special Committee on Postwar Agricultural Policy. This is the report of the Committee."

Black, John D. and Gibbons, C. A. WAR AND AMERICAN AGRICULTURE. 55 p. 1944, Cambridge, Harvard university press. 251.8 R32

According to the introduction, the "intent of this study is to trace the developments in agricultural production, prices, wages, cost, income, and related subjects since the beginning of the present world war, and to anticipate the further changes in these factors during the remainder of the war and in the early postwar period." This publication is the February 1944 issue of the Review of Economic Statistics.

MISCELLANEOUS

Bromfield, Louis. PLEASANT VALLEY. 302 p. illus. 1945, New York, Harper & bros. 31.3 B78 1945

"This book is a personal testament out of a lifetime by a man who believes that agriculture is the keystone of our economic structure and that wealth, welfare, prosperity and even the future freedom of this nation are based upon the soil... written in the profound belief that farming is the most honorable of professions and unquestionably a romantic and inspiring one."

Chase, Stuart. DEMOCRACY UNDER PRESSURE; SPECIAL INTERESTS VS. THE PUBLIC WELFARE. 142 p. 1945. New York, Twentieth Century Fund. 280.12 C38D.

This is the fourth volume by Mr. Chase in a series When the War Ends. In the present volume he points out "that the United States must be united in fact as well as in name... Treeding on very specific and sensitive toes, he portrays the drift toward monopoly in business, agriculture, and labor, which is preventing us from achieving the maximum volume of employment and production and he indicts the great pressure groups for threatening, even in wartime, to divide the nation by placing their own selfish economic interests above those of the public."

Renner, George T. GLOBAL GEOGRAPHY. 728 p. illus. 1945, New York, Thomas Y. Crowell company. 278 R29 1945.

Observing that we are geographical illiterates, this book attempts to view peoples, nations and theaters of current events environmentally, and to classify and analyse various problems in terms of their regional or global relations. The four parts are: Resource patterns and world affairs; Economic problems; Geo-cultural problems; and Geopolitical problems.

THIS IS THE TIME

of the year when the products of that victory garden are preserved. A number of publications are available from the Library on methods used -- canning, freezing, brining, etc. If you are working on vegetables or on fruits, or expect to later be working on meats, let us know if we can help you. Tell us what you want.

BEAMED TO BORROWERS

BORROWERS--ALL USDA employees in Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming are welcome to use the Lincoln Branch Library. ITS services are YOURS.

FORM AD-245--This is used when requesting material. The Library uses it as a charge record. It may be procured from your supply center. Give Call No. (example 56.43 Am32) in the space marked for it; your name, agency, and address (in the section marked "For", "Bureau", Etc.); author (of book or article); title (of book or article); name of periodical and what information you have as to vol., no., page and date. "Charged" and "Return to" should be left blank.

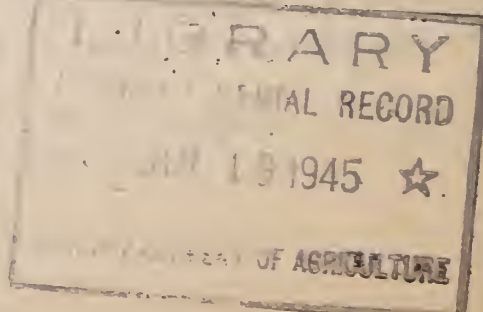

- LOAN PERIODS -
1. Usual--two weeks; renewable upon request if not needed elsewhere.
 2. Limited--Dependent on circumstances. These may be books in unusual demand, or books borrowed on inter-library loan whose date limit is set by the loaning library. Watch the date.
 3. Maximum--One month; renewable, if not requested, for one additional month ONLY.
 4. Current periodicals--Three days per person.

OVERDUES--You don't like to receive them and we don't like to send them. Return your material on time, or ask for a renewal. It will save our time for you.

REQUESTS--These need not be limited to titles listed in the NEWSLETTER. Check the BIBLIOGRAPHY OF AGRICULTURE for current material on agriculture and on related subjects. If we do not have the title desired, we shall try to borrow from another library.

BEST SELLERS--We frequently have long waiting lists for publications listed in the NEWSLETTER. Names are added in the order received.

LEST WE FORGET--The fellows on the end of the list would also like the information while it is current. Look at the periodicals soon after they arrive. If you are going to want more than three days to assimilate the contents which interest you, add your name to the end of the list, send the material along, and it will come to you again.

U.S. DEPARTMENT OF AGRICULTURE

Vol. 4, No. 8

LINCOLN BRANCH
Rudge & Guenzel Bldg.
Lincoln 1, Nebraska

August 1945

SELECTED NEW BOOKS

American medical association. Bureau of medical economics. MEDICAL SERVICE PLANS. 72 p. 1943, Chicago, Author. 284.6 Am34.

This is a report prepared by the Bureau of medical economics of the A.M.A. Its chapters consist of the following headings: growth of medical organizations (social security legislation); care of the indigent; Farm Security Administration; medical care plans (plans of various states and localities); and experience with prepayment plans.

Beckman, R. O. HOW TO TRAIN SUPERVISORS. 329 p. 1944, New York, Harper & brother publishers. 249 B38 Ed. 3

This book is so packed with information that only a few of the chapter headings can be given, such as Stimulating profitable discussion; Technique of control; Preparing to present a topic; Federal training within industry program; Evaluation of results; Steps in organization and administration. Included in the outlines for discussion are: Responsibilities of a supervisor or foreman; Various ways of giving an order; Negligence; Safety and accident prevention; Training employees; there are many other topics.

Bowes, A. deP. and Church, C. F. FOOD VALUES OF PORTIONS COMMONLY USED. 44 p. 5th ed. 1945, Philadelphia; Anna dePlanter Bowes. 389.1 B672 Ed. 5 1945

Analysis of diet and a comparative study of food are simplified by use of this book. Tables of food values are given under the following groups: Breads; Cereals and cereal products; Dairy products; Eggs; Fats, oils, salad dressings; Fish; Fruit; Fruit juices; Meats; Nuts; Sugars and syrups; Sweets; Vegetables; Vitamin rich products; Miscellaneous.

BRITISH AGRICULTURAL STATISTICS, 1939-1944. 15 p. 1944, British information services, Information division. 280.9 B772.

Sections are Acreage of crops and grass, Estimated production of the principal crops, and Livestock population. Each section is divided into England and Wales, United Kingdom, and Explanatory notes.

Dorrance, Anne. GREEN CARGOES. 187 p. 1945, Garden City, New York, Doubleday, Doran & Co., inc. 452.9 D73

Not only informative but fascinating is this small book. The search for new plants, and the problems of transporting them, sometimes successfully and at other times not, from one locality to another makes one appreciative of the products we have as the results of green cargoes.

Eldridge, S. and others. DEVELOPMENT OF COLLECTIVE ENTERPRISE: DYNAMICS OF AN EMERGENT ECONOMY. 577 p. 1943, Lawrence, Kansas, University of Kansas press. 280.12 EL2D

Part I. Growth of collective enterprise. Part II. Fields already collectivized (Includes Land reclamation). Part III. Fields undergoing collectivization.

(Includes Forestry; Electric power; Rural resettlement; Housing; Medical service and health care). Part IV. Special problems. Part V. A theory of Collective enterprise.

FOOD AND AGRICULTURE ORGANIZATION. A joint statement by the Agriculture, Business, and Labor Committees on National Policy and the Committee on International Policy of the National Planning Association. 8 p. 1945, Washington, D. C. National Planning Ass'n.

"Growing and consuming agricultural products affects everybody in the world - not farmers alone. This Joint Statement endorsing United States participation in the Food and Agriculture Organization was drafted for NPA's Standing Committees by Agriculture Committee Member Oscar Heline, an Iowa farmer. It contains a section of questions and answers on FAO which should prove a helpful study guide. The Statement's purpose is simple: to set down clearly what FAO is, how it could work, and why it is needed for a secure world."

Gilman, J. C. MANUAL OF SOIL FUNGI. 392 p. illus. 1945, Ames, Iowa, The Collegiate press, inc. 462 G42

"The present volume is designed to place a tool in the hands of investigators that will enable them to identify the soil fungi which they encounter in the course of their work... It brings together ... the descriptions of fungi which have been reported as isolated from the soil, together with keys to aid in identifying the fungi in hand."

Moore, Arthur. FARMER AND THE REST OF US. 226 p. 1945, Boston, Little, Brown and company. 281.12 M78

The point of view of the author is of an urban American who is writing about his food and those who produce it. This is a story of the farmer in the corn belt, his traditions, prejudices, attitudes toward labor, politics, farm organizations, government programs, etc.

National association of cooperatives. TAXES AND CO-OPS. 20 p. 1944, Chicago, Author. 284.5 N2195

(Includes farmer cooperatives)

Nicholson, H. H. PRINCIPLES OF FIELD DRAINAGE. 165 p. illus. 1944, Cambridge, University press. 54 N52 1944

"To interest and perhaps assist those whose business it is to organise, devise, advise on and supervise works of field drainage" is the object of this book.

It treats of such aspects as soil, ditches, tile, mole and field drainage.

Technical aspects, as surveying, engineering, are not included.

U. S. Bureau of foreign and domestic commerce. Inquiry reference service. REGIONAL POST-WAR PLANNING. 87 p. 1944. Washington, D. C. Author. 157.55 R2
The following regions are given: New England, New York, Philadelphia tri-state, East central, Southeast, Chicago, Midcontinent, Southwest, and Far western. In each case, first a Summary, and then various aspects of the problems are taken up.

Wallace, Henry A. DEMOCRACY REBORN; SELECTED FROM PUBLIC PAPERS AND EDITED WITH AN INTRODUCTION AND NOTES by Russell Lord. 280 p. 1944, New York, Reynal & Hitchcock. 280 W156D

The fifteen-page introduction by Russell Lord gives some of the Wallace family history, as Mr. Wallace is claimed to be a product of family growth. This chronology takes him to when he first went to Washington. The speeches and articles which follow date from March 10, 1933 to May 15, 1944. They are arranged by year.

Welles, Sumner. AN INTELLIGENT AMERICAN'S GUIDE TO THE PEACE. 370 p. maps. 1945, New York, Dryden press. 129 W45.

On the theory that to make competent decisions an electorate must be well-informed, assistance is here offered on international problems about to confront us. The arrangement is by country under the following regions: Europe; British Commonwealth of Nations; Western Hemisphere; Far East; Near East and Mediterranean Orbit; Africa. The following topics are included for each country: Land and the People; Nation's Economy (Agriculture; Industry; Money, Taxation, and Debt; Foreign Trade and Investments); History: 1914-1944; Stakes in the Peace. Percentage of land under cultivation, amount of yield, population engaged in farming are interesting factors.

STATISTICS

Briefly, this is the count of how you used your Branch Library during the fiscal year recently ended.

	<u>Local</u>	<u>Field</u>
Circulation		
Books	3376	2255
Periodicals	17344	35776
Reference		
Taking less than 5 min.	1023	2193
Taking more than 5 min.	305	26

The number of personnel served was Local: 183; Field: 461.

This year we hope to serve more of you more times.

BEAMED TO BORROWERS

BORROWERS--ALL USDA employees in Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming are welcome to use the Lincoln Branch Library. ITS services are YOURS.

FORM AD-245--This is used when requesting material. The Library uses it as a charge record. It may be procured from your supply center. Give Call No. (example 56.43 Am32) in the space marked for it; your name, agency, and address (in the section marked "For", "Bureau", Etc.); author (of book or article); title (of book or article); name of periodical and what information you have as to vol., no., page and date. "Charged" and "Return to" should be left blank.

- LOAN PERIODS -
1. Usual--two weeks; renewable upon request if not needed elsewhere
 2. Limited--Dependent on circumstances. These may be books in unusual demand, or books borrowed on inter-library loan whose date limit is set by the loaning library. Watch the date.
 3. Maximum--One month; renewable, if not requested, for one additional month ONLY.
 4. Current periodicals--Three days per person.

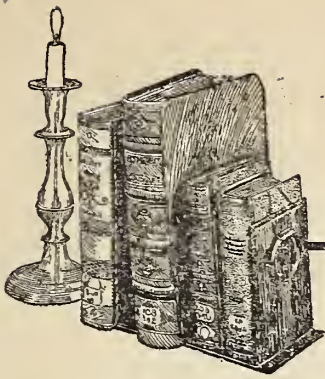

OVERDUES--You don't like to receive them and we don't like to send them. Return your material on time, or ask for a renewal. It will save our time for you.

REQUESTS--These need not be limited to titles listed in the NEWSLETTER. Check the BIBLIOGRAPHY OF AGRICULTURE for current material on agriculture and on related subjects. If we do not have the title desired, we shall try to borrow from another library.

BEST SELLERS--We frequently have long waiting lists for publications listed in the NEWSLETTER. Names are added in the order received.

LEST WE FORGET--The fellows on the end of the list would also like the information while it is current. Look at the periodicals soon after they arrive. If you are going to want more than three days to assimilate the contents which interest you, add your name to the end of the list, send the material along, and it will come to you again.

BEAMED TO BORROWERS

BORROWERS--ALL USDA employees in Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming are welcome to use the Lincoln Branch Library. ITS services are YOURS.

FORM AD-245--This is used when requesting material. The Library uses it as a charge record. It may be procured from your supply center. Give Call No. (example 56.43 Am32) in the space marked for it; your name, agency, and address (in the section marked "For", "Bureau", Etc.); author (of book or article); title (of book or article); name of periodical and what information you have as to vol., no., page and date. "Charged" and "Return to" should be left blank.

LOAN PERIODS - 1. Usual--two weeks; renewable upon request if not needed elsewhere
2. Limited--Dependent on circumstances. These may be books in unusual demand, or books borrowed on inter-library loan whose date limit is set by the loaning library. Watch the date.
3. Maximum--One month; renewable, if not requested, for one additional month ONLY.
4. Current periodicals--Three days per person.

OVERDUES--You don't like to receive them and we don't like to send them. Return your material on time, or ask for a renewal. It will save our time for you.

REQUESTS--These need not be limited to titles listed in the NEWSLETTER. Check the BIBLIOGRAPHY OF AGRICULTURE for current material on agriculture and on related subjects. If we do not have the title desired, we shall try to borrow from another library.

BEST SELLERS--We frequently have long waiting lists for publications listed in the NEWSLETTER. Names are added in the order received.

LEST WE FORGET--The fellows on the end of the list would also like the information while it is current. Look at the periodicals soon after they arrive. If you are going to want more than three days to assimilate the contents which interest you, add your name to the end of the list, send the material along, and it will come to you again.

PLEASE TEAR OFF THIS PIECE AND SEND IT TO THE LIBRARY. WE SHOULD LIKE TO BE ABLE TO TABULATE RETURNS ON OCTOBER 6 FOR NEXT MONTH'S NEWSLETTER.

LIBRARY NEWSLETTER

U. S. DEPARTMENT of AGRICULTURE

Vol. 4, No. 10

LINCOLN BRANCH
Rudge & Guenzel Bldg.
Lincoln 1, Nebraska

October 1945

SELECTED NEW BOOKS

FARMING

Howard, Robert W. TWO BILLION ACRE FARM; AN INFORMAL HISTORY OF AMERICAN AGRICULTURE. 209 p. 1945, New York, Doubleday, Doran and co., inc. 30.9 H83
The subtitle gives the clue to this book, wherein a kaleidoscopic account of the development of our 1,940,000,000-acre farm between 25,000 B.C. and 1944 A.D. is given. The book is filled with interesting information about the American past.

Wend, Milton. HOW TO LIVE IN THE COUNTRY WITHOUT FARMING; PLANNING AND ESTABLISHING A PRODUCTIVE COUNTRY HOME. 316 p. 1944, Garden City, Doubleday, Doran & Co., Inc. 31.3 W48

The immediate problems of property, food, crops and animals are considered as well as money-earning occupations, shops and workrooms, finances and budgets, transportation, the weather, education, neighbors and community, and other desiderata.

FORESTRY

Buttrick, Philip L. FOREST ECONOMICS AND FINANCE. 484 p. 1943, New York, John Wiley & Sons, Inc. 99.7 B98

Economic and financial bases of forest enterprises is the heading for part 1: Financing of forest enterprises; Nature of capital and credit and of investments; Appreciation and depreciation; Value, cost, price, and profit are some of the chapters. Part two is on Special economic factors in forestry: Economic and social value of forests; Early history of American forest industries; Land as a basis for forest enterprise; Costs and profits in forestry; Sustained-yield forestry; Economics of protection, recreation, and wildlife forestry: Forest taxation, tariffs, and insurance are some of the chapter topics. Part three is Forestry as a private and a public enterprise: the three chapters are Forestry as a private enterprise; Economics of public forests, and Public assistance and regulations of private forests.

Hunt, G. M. and Garratt, G. A. WOOD PRESERVATION. 457 p. illus. 1938, New York, McGraw-Hill book co., inc. 300 H91

The subjects herein are: Field of wood preservation; Agencies of wood deterioration; Wood preservatives; Preparation of material for treatment; Wood-preserving processes; Factors affecting penetration and absorption; Economic aspects of preservative treatment; Properties of treated wood; treating plants and equipment; Methods of protecting wood other than by standard preservative treatment; and Fire-retarding treatments.

Jensen, V. H. LUMBER AND LABOR. 314 p. 1945, New York, Farrar & Rinehart, inc. 283 J45.

Unionization, interunion conflicts, industrial struggles and the impact of the war on this industry are here treated. The workers have been migratory, and the locale nation-wide. Most of the unionization in it, however, has been in

the west. There is also a good bibliographical section.

SOIL

Little, James M. EROSIONAL TOPOGRAPHY AND EROSION; A MATHEMATICAL TREATMENT; WITH APPLICATION TO GEOMORPHOLOGY, SOIL SCIENCE, AGRONOMY AND ENGINEERING. 104 p. 1940, San Francisco, A. Carlisle & co. 290 L72

"The principle objectives of this treatise are: (1) to tie in erosional geomorphology with hydraulics and hydrology; (2) to develop an erosional rating for turbulent flow and to expand the development for land slope profiles and their surface material of soils and covers, and to outline the application to concentrated runoff flow; (3) to provide sufficient tables for practical application to problems of sheet runoff."

Mantell, C. L. ADSORPTION. 386 p. 1945, New York, McGraw-Hill book co., inc. 386 M31.

This book should be of special interest to those who are concerned with the exchange capacities of soils and related properties. The book has been written from the engineering viewpoint, but this should not impair its usefulness to those who are engaged in research on soils.

MISCELLANEOUS

American society of photogrammetry. MANUAL OF PHOTOGRAMMETRY. 841 p. illus. Preliminary edition. 1944, New York, Pitman publishing corporation. 325.2 Am3 Prelim.

Principles of surveying, Photogrammetric optics, cameras, Geometric characteristics, Stereoscopy, Interpretation, Radial plotting methods, Photographic mosaics, Analytical computations, Mapping from oblique photographs, Field inspection and completion, are some of the chapter headings of this volume.

Burdick, Usher L. HISTORY OF THE FARMERS' POLITICAL ACTION IN NORTH DAKOTA. 140 p. 1944, Baltimore, White Brothers. 277.065 B89.

"The purpose of this book is to present the record of the struggle made by the farmers of North Dakota to establish for themselves a better market for their grain and livestock...insofar as the economic side of the question can be shown to have developed independently of political considerations, this has been done."

Gates, Paul W. WISCONSIN PINE LANDS OF CORNELL UNIVERSITY; A STUDY IN LAND POLICY AND ABSENTEE OWNERSHIP. 265 p. illus. 1943, Ithaca, New York, Cornell university press. 282 G22

Regional studies are necessary before the broad field of the disposal of the Public Domain can be well handled. This volume is the result of an opportunity to use the records concerning the half million acres of pine land entered in Wisconsin and Minnesota by Ezra Cornell for the university he founded. It will be interesting to those interested in land policy, absentee ownership, taxation, or local government on the frontier.

Kingdon, Frank. AN UNCOMMON MAN; HENRY WALLACE AND 60 MILLION JOBS. 190 p. 1945, New York, Readers press, inc. 280.12 K 58 1945a

A brief sketch of Mr. Wallace, his relation to some political figures, some of his uncommon ideas, and then the applicability of sixty million jobs to various phases of world trade, private business, the Beveridge plan, special American problems, and politics, form the contents of this book.

Western farm economics association. Papers and proceedings. AGRICULTURE IN TRANSITION FROM WAR TO PEACE. 283 p. 1944, Berkeley, California, The Author. 280.83 W53 17th, 1944

This volume contains the papers and proceedings of the seventeenth annual con-

ference of this organization. Subjects presented were Outlook for the western states; Outlook for Europe's agriculture; Transitional demand for food, feed and fibers; Settlement of war veterans and other new farmers; Transitional economic position of the American farmer; Farm management; Agricultural marketing or distribution economics; Agricultural finance; Western land utilization; Food and nutrition; Rural sociology.

MYSTERY OF

How To Train Supervisors, by Beckman. This book is missing and there is a waiting list for it. If you have it will you please return it to the Library so that others may use it.

THANKS

to those who answered the questionnaire in the September issue of the Newsletter. A few suggestions came in which we hope to incorporate. More would be welcome. Send them whenever you have the urge.

BEAMED TO BORROWERS

BORROWERS--ALL USDA employees in Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming are welcome to use the Lincoln Branch Library. ITS services are YOURS.

FORM AD-245--This is used when requesting material. The Library uses it as a charge record. It may be procured from your supply center. Give Call No. (Example 56.43 An32) in the space marked for it; your name, agency, and address (in the section marked "For", "Bureau", Etc.); author (of book or article); title (of book or article); name of periodical and what information you have as to vol., no., page and date. "Charged" and "Return to" should be left blank.

- LOAN PERIODS -
1. Usual--two weeks; renewable upon request if not needed elsewhere.
 2. Limited--Dependent on circumstances. These may be books in unusual demand, or books borrowed on inter-library loan whose date limit is set by the lending library. Watch the date.
 3. Maximum--One month; renewable, if not requested, for one additional month ONLY.
 4. Current periodicals--Three days per person.

OVERDUES--You don't like to receive them and we don't like to send them. Return your material on time, or ask for a renewal. It will save our time for you.

REQUESTS--These need not be limited to titles listed in the NEWSLETTER. Check the BIBLIOGRAPHY OF AGRICULTURE for current material on agriculture and on related subjects. If we do not have the title desired, we shall try to borrow from another library.

BEST SELLERS--We frequently have long waiting lists for publications listed in the NEWSLETTER. Names are added in the order received.

LEST WE FORGET--The fellows on the end of the list would also like the information while it is current. Look at the periodicals soon after they arrive. If you are going to want more than three days to assimilate the contents which interest you, add your name to the end of the list, send the material along, and it will come to you again.

SERIES

71

On these two pages are listed series which are of interest.

National Planning Association. PLANNING PAMPHLETS. 280.9 N2153. (These issues have not been previously listed in the Library Newsletter of Lincoln Branch)

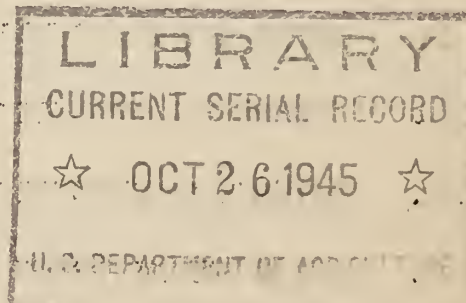

- No. 29. FOOD FOR EUROPE AFTER VICTORY
- No. 30-31. UNRRA: GATEWAY TO RECOVERY
- No. 32. THE OUTLOOK FOR SYNTHETIC RUBBER
- No. 33. JOINT STATEMENT ON SOCIAL SECURITY BY AGRICULTURE, BUSINESS AND LABOR
- No. 34. CLOTHING AND SHELTER FOR EUROPEAN RELIEF
- No. 35. FISCAL AND MONETARY POLICY
- No. 36. EUROPE'S UPROOTED PEOPLE; THE RELOCATION OF DISPLACED POPULATION
- No. 37-38. AMERICA'S NEW OPPORTUNITIES IN WORLD TRADE
- No. 39.. STRENGTHENING THE CONGRESS
- No. 40. CHINA'S RELIEF NEEDS
- No. 41. STABILIZING THE CONSTRUCTION INDUSTRY
- No. 42. FERTILIZERS IN THE POSTWAR NATIONAL ECONOMY
- No. 43-44. NATIONAL BUDGETS FOR FULL EMPLOYMENT
- No. 45. FISCAL POLICY FOR FULL EMPLOYMENT
- No. 46. A FOOD AND NUTRITION PROGRAM FOR THE NATION

U. S. Department of Agriculture. AGRICULTURAL INFORMATION SERIES. 1 Ag84Ai.
(Some of these have been previously listed in the Library Newsletter of Lincoln Branch, but they are given here as what has been received to date.)

- No. 1. INTERNATIONAL TRADE INCREASES DEMAND FOR FARM PRODUCTS
- No. 2. GUIDE FOR CUTTING LOBLOLLY PINE OF THE EASTERN SHORE
- No. 3. GUIDE FOR CUTTING ALLEGHENY NORTHERN HARDWOODS
- No. 4. GUIDE FOR CUTTING NEW ENGLAND NORTHERN HARDWOODS
- No. 5. GUIDE FOR CUTTING OAK FORESTS
- No. 6. GUIDE FOR CUTTING RED SPRUCE
- No. 7. GUIDE FOR CUTTING EASTERN WHITE PINE
- No. 8. COOKING DEHYDRATED VEGETABLES

SERIES -- (Cont.)

- No. 9. ROE McDANOLDS HAS A FARM
- No. 10. WHAT ARE WE AIMING AT? A FOREST CONSERVATION PROGRAM
- No. 11. RURAL ELECTRIFICATION AFTER THE WAR
- No. 12. \$5 AN ACRE --- TO HELP YOU INCREASE FLAXSEED PRODUCTION AND HELP WIN THE WAR
- No. 13. DON'T KILL THE FOREST GOOSE; FORESTS ARE WEALTH
- No. 14. IF YOU'RE THINKING OF A LITTLE PLACE IN THE COUNTRY
- No. 15. A POST-WAR FOREIGN TRADE PROGRAM FOR UNITED STATES AGRICULTURE
- No. 16. A GUIDE TO CONSERVATION PRACTICES FOR OHIO
- No. 17. BETTER MANAGEMENT ON SOUTHERN COASTAL FOREST RANGES
- No. 18. HOW MUCH FERTILIZER SHALL I USE? A GARDENER'S GUIDE ...
- No. 19. SOME QUESTIONS AND ANSWERS ON WHERE AND HOW TO GET A FARM
- No. 20. FARMERS LOOK AT POST-WAR PROSPECTS
- No. 21. FOOD FOR TWO
- No. 22. MAKING VELVA FRUIT AT HOME
- No. 23. THE WORLD NEEDS SEED! HARVEST EXTRA ACRES; ALFALFA, ALSIKE, RED CLOVER
- No. 26. HOW AND WHERE TO OBTAIN MOTION PICTURES OF THE UNITED STATES DEPARTMENT OF AGRICULTURE
- No. 30. SOIL TREATMENT AN AID IN TERMITE CONTROL
- No. 31. CHEMICALS TO KILL WEEDS AND DISEASES IN TOBACCO BEDS

SELECTED NEW BOOKS

FARMING

Jackson, William. LIVESTOCK FARMING. 310 p., illus. 1944, U. S. Department of Agriculture. 40 J13

This has been published by the Armed Forces Institute and also by the Department of Agriculture. It has brief and to-the-point information on careers in farming; various phases of livestock farming - as dairy, hog, farm sheep, range sheep, etc.; breeding; feeding; animal health; marketing; and meat supply.

Larson, Gustav E. ed. WHAT IS FARMING? 504 p. illus. 1944, U. S. Department of Agriculture. 1 Ag84Wh

"This book was prepared by men and women in the Department of Agriculture for men in the armed services who are seeking to understand farming... It is for men with or without farm background. It lays before you the whole picture of American farming, big farms and little farms - the growing of potatoes... corn, cattle, hogs, or whatever - from Maine to California and the Great Lakes to the Gulf." Quoted from the Foreword by H. R. Tolley.

Teller, Walter M. FARM PRIMER; A MANUAL FOR THE BEGINNER AND PART-TIME FARMER. 276 p., illus. 1945, Philadelphia, David McKay Co. 30.3 T23 1945.

This book is a guide to things done, made or used by hand; to the tools needed, to things grown and used and to animals; to agencies which will help; to profit and loss figures. Many useful tables are in the appendices.

U. S. Bureau of agricultural economics. Division of farm management. MANAGING A FARM. 333 p. illus. 1944, U. S. Department of agriculture. 1 Ec7Ma.

Farming as a business and a way of living; Little farms, big farms, and family farms; Types of farming and farming regions; Planning the farm lay-out; Selecting and using farm equipment; Planning the farm for profit and stability; useful records; Improving the management of family farms, are some of the chapter headings in this book.

TECHNIQUES

Bingham, W. V. and Moore, B. V. HOW TO INTERVIEW. 263 p. 1941, New York, Harper & brothers. 145 B51 Ed. 3

A working definition of an interview is given as "a serious conversation directed to a definite purpose other than satisfaction in the conversation itself." First principles, learning how to interview, and interviewing for purposes are given herein.

Lundberg, George A. SOCIAL RESEARCH; A STUDY IN METHODS OF GATHERING DATA. 426 p. 1942, New York, Longmans, Green and co. 280 L972 Ed. 2

The aim of this book is to present practical techniques on securing basic data on sociological questions. Such subjects as Difficulties of Objective observation; the sample in social research; the questionnaire; measurement of atti-

tudes and opinions; and the interview and the social survey, are included.

MISCELLANEOUS

North American wildlife conference. Transactions. 9th [conference]. 376 p. 1944, Washington, D. C., American wildlife institute. 412.9 N814 9th 1944.

This conference was held at Chicago. Subjects for the general sessions were: Forests and soil; Plans and programs; Coordinated land management; Engineering; Health, reclamation. Subjects for the special sessions were: Big game management; Fish management; Commercial fisheries; Waterfowl; Upland game management; Functions of wildlife and conservation education.

Lightmire, George W. FEDERAL AID AND REGULATION OF AGRICULTURAL AND PRIVATE INDUSTRIAL ENTERPRISE IN THE UNITED STATES. 126 p. 1943, Columbus, Ohio State University Press. 280.12 R44.

Agriculture, as a basic industry, is treated separately and chronologically down to the present war, - the Homestead Act down to and following the New Deal. Part II deals with Transportation, Business, Industry, Social Welfare.

Roadhouse, Chester L. and Henderson, J. L. MARKET-MILK INDUSTRY. illus. 624 p. 1941, New York, McGraw-Hill book company, inc. 44 R53

Composition of milk, safeguarding the supply, sanitary production of market milk, country milk-receiving stations, transportation, flavors, milk-plant operation, mechanical refrigeration, special products, distribution, are a few of the phases of the subject treated in this book.

Ruedé, Howard. SOD-HOUSE DAYS; LETTERS FROM A KANSAS HOMESTEADER, 1877-78. 248 p. 1937, New York, Columbia university press. 30.9 R83

Various reasons brought people from the east to settle in the west. This book is a volume of letters written by a man from Pennsylvania who came to Kansas. Aside from its intrinsic general interest, it has the additional qualification of giving first-hand information about the status of agriculture in a west central Kansas community about seventy years ago.

Sloane, Roscoe C. and Montz, John M. ELEMENTS OF TOPOGRAPHIC DRAWING. 2d ed. 251 p. 1943, New York, McGraw-Hill book company, inc. 325 SL53 Ed. 2

Materials and equipment, blocking out maps, plotting points and details, applications of geometry and trigonometry, symbols for vegetation, culture, soils, relief and hydrography, map lettering, contour representation are among the topics discussed.

Wise, Louis E. ed. WOOD CHEMISTRY. 900 p. 1944, New York, Reinhold publishing corporation. 99.79 W75.

This book belongs to the American Chemical Society Monograph series. It is the work of thirteen authors and the editor. Part I - Growth, anatomy, and physical properties of wood (two chapters). Part II - Components and chemistry of the cell wall (nine chapters). Part III - Extraneous substances (one chapter). Part IV - Surface properties of cellulosic materials (one chapter). Part V - Chemical analysis of wood (six chapters). Part VI - Wood as an industrial raw material (six chapters).

BOOKS YOU MAY HAVE MISSED BEFORE

Chapman, Paul W. CHICKEN RAISING MADE EASY. illus. 151 p. 1943. New York, Macmillan company. 47 Q362

Chickens for broilers and fryers, or pullets and hens for eggs and meat are two separate enterprises either or both of which may be included in a production program. Various problems are considered in the sequence in which they will be encountered. House plans are for flocks of from 4 to 24 hens. Emphasis is placed on healthy poultry.

Lilienthal, David E. TVA; DEMOCRACY ON THE MARCH. 248 p. 1944. New York, Harper & Brothers. 280.002 L62T Ed. 2

This book "is about real things and real people; rivers and how to develop them; new factories and new jobs and how they are created; farms and farmers and how they came to prosper and stand on their own. ... It is a story of the people and how they have worked to create a new valley. ... A thousand valleys over the globe and our valley here are in this way the same: everywhere what happens to the land, the forests, and the water determines what happens to the people. ... This is a book about tomorrow."

Lowdermilk, Walter C. PALESTINE, LAND OF PROMISE. 236 p. illus. 1944, New York, Harper & Brothers. 280.185 L95

In 1938 Dr. Lowdermilk was sent by the Department of Agriculture to make a soil survey of the old countries of the Near East. He gives here an inspiring account of what reclamation can accomplish toward a new and productive economy as evidenced by work already done in the land of Palestine.

Malin, James C. WINTER WHEAT IN THE GOLDEN BELT OF KANSAS; A STUDY IN ADAPTATION TO SUBHUMID GEOGRAPHICAL ENVIRONMENT. 290 p. 1944. Lawrence, Univ. of Kansas press. 30.9 M292

From wayback to winter wheat production in 1855, through the soft winter wheat boom era 1872-1882, and the emergence of the hard winter wheat regime, 1883-1902 this book is a study of the development of this crop in the upper Kansas river locality. It is the struggle for finding crops and varieties adapted to this environment and the search for better methods of tillage and more suitable implements. Humor is not lacking.

Murray, William G. AGRICULTURAL FINANCE; PRINCIPLES AND PRACTICE OF FARM CREDIT. 328 p. 1941. Ames, Iowa, Iowa State College press. 284.2 M96

Principles of farm credit, - as income analysis, natural hazards (illustrated by conditions in the Great Plains), short-term credit, payment terms, interest rates take up the first part of the book; the second part analyses various lending agencies, as insurance companies, merchants, various banks (commercial, federal land, joint stock land, cooperatives, etc.) considering such features as historical development, loan procedure, objectives.

WHAT WE NEED

is a crystal ball to see who sent in AD-245's for the following:

Comparison of open and woods pastures (Ohio Agri. Expt. Sta. Bi-monthly Bul. 136:3-8)

Woodland livestock carrying capacities and grazing injury studies (Purdue Univ. Agri. Expt. Sta. Bul. 391)

and two other Purdue Bulletins. It does not often happen that requests arrive without the name and address of the person desiring them, and it is an item without which we are lost.

Will someone identify the author of this whodunit?

BEAMED TO BORROWERS

BORROWERS--ALL USDA employees in Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming are welcome to use the Lincoln Branch Library. ITS services are YOURS.

FORM AD-245--This is used when requesting material. The Library uses it as a charge record. It may be procured from your supply center. Give Call No. (Example 56.43 Am32) in the space marked for it; your name, agency, and address (in the section marked "For", "Bureau", Etc.); author (of book or article); title (of book or article); name of periodical and what information you have as to vol., no., page and date. "Charged" and "Return to" should be left blank.

- LOAN PERIODS -
1. Usual--two weeks; renewable upon request if not needed elsewhere
 2. Limited--Dependent on circumstances. These may be books in unusual demand, or books borrowed on inter-library loan whose date limit is set by the loaning library. Watch the date.
 3. Maximum--One month; renewable, if not requested, for one additional month ONLY.
 4. Current periodicals--Three days per person.

OVERDUES--You don't like to receive them and we don't like to send them. Return your material on time, or ask for a renewal. It will save our time for you.

REQUESTS--These need not be limited to titles listed in the NEWSLETTER. Check the BIBLIOGRAPHY OF AGRICULTURE for current material on agriculture and on related subjects. If we do not have the title desired, we shall try to borrow from another library.

BEST SELLERS--We frequently have long waiting lists for publications listed in the NEWSLETTER. Names are added in the order received.

LEST WE FORGET--The fellows on the end of the list would also like the information while it is current. Look at the periodicals soon after they arrive. If you are going to want more than three days to assimilate the contents which interest you, add your name to the end of the list, send the material along, and it will come to you again.
